In 2016, they became the country's first UNESCO World Heritage Site. Botanical curiosities abound, such as the *Grammatophyllum speciosum*, epiphytic orchids that live at the top of trees and, with their weight, fall to the ground and take root to form an impressive volume: up to 5 m in circumference and weighing 2 tons..

The Orchid Garden: In Asia, a flower is often emblematic of a country; through its shape and colors it represents its values and traditions. The national flower of Singapore is the Orchid, the flower of all desires, Singaporeans have an almost fanatical passion for it. Bringing together no fewer than 1,000 species and more than 2,000 hybrids, it is the largest orchid garden in the world.
